Install Windows from USB Drive

Install Windows Server from USB

1. Download from https://www.microsoft.com/en-us/evalcenter/evaluate-windows-server-2019
2. Then, put on USB via one of the following
    1. https://www.diskpart.com/server-2019/windows-server-2019-iso-to-usb-1984.html
    2. https://www.itechguides.com/burn-iso-to-usb/
3. If using Windows 7 to create, need to mount ISO (Win8 and greater already have)
    1. https://wincdemu.sysprogs.org/download/
