Prosody

Prosody is an XMPP server. My main use of it has been with a Jitsi installation since Jitsi uses Prosody for authentication. However, there are reasons to use Prosody by itself. Following are some links I found.

- https://prosody.im/doc/chatrooms
- https://samhobbs.co.uk/2016/09/installing-prosody-instant-message-chat-server-raspberry-pi-ubuntu
- https://samhobbs.co.uk/2016/09/extra-modules-prosody-instant-message-chat-server-raspberry-pi-ubuntu
